

INTERNET TOOLBOX

Here are links to our wells of professional learning. Please share these links with your colleagues widely. These wells of professional resources will be continuously refined over time. So, please tap into our ISS Padlet collection often to check out new tools and tips. And please don't hesitate to let me know what we can add to each well so that these resources honor and further your faculty's professional learning and classroom work. I am working to develop a Padlet for each discipline and for specific topics of interest (much like the ISS Assessment Study Group Padlet which I hope all Pre-K – 12th grade teachers and administrators find helpful). If you have a focus to suggest, drop me an email: lbenson@iss.edu.
