Our mission is to empower all of our students to be successful and responsible in a nurturing and diverse learning community, so that they can achieve their potential in a changing world.

In harmony with the ideals of the IB Learner Profile, and the spirit of the Universal Declaration of Human Rights, we aim for students to be inquiring, inspired, and involved lifelong learners.
Vienna International School was founded in 1978 to provide high quality education in English for the children of the new United Nations head offices in the city. Until today, over 80% of the VIS families belong to Vienna-Based International Organisations (VBOs).

Truly international in its composition, VIS is home to 126 nationalities and 86 mother tongues within a student body of over 1360. The school is an IB World School, authorized to teach the IB PYP, MYP and DP curricula, and was recently re-accredited by the Council of International Schools.

95% of students will normally complete and pass the IB Diploma. More than 200 teachers make for a 1:7 teacher:student ratio and promote a holistic development of the children.

Being committed to the UN Charter, VIS is an inclusive school. Believing in the value of the UN Sustainable Development Goals, the school was the first educational institution in Austria to be granted ECO-status. A multitude of additional offers help students to become the best person they can be.

As a legal entity, VIS is an association under Austrian law, with seven Board members, both parent elected and appointed by the VBOs.
The Director is ultimately responsible to the Board of Governors for all aspects of school life. This includes the pedagogical and the financial side.

The Director is supported by the Principals and Deputy principals, by a Business manager, a Facilities manager and a Finance manager. The Human Resources department reports directly to the Director.

In close cooperation with the Board and the staff, the Director is expected to continuously build a culture of trust and respect, engagement and collaboration, learning and understanding in order to best serve the community.

An interest in developing facilities and in data-driven decision making is important. The Director has excellent communication skills and a positive attitude to working with all stakeholders, including the Host Government and the school’s Staff Council.
