Hear from a school-wide ISS EDUlearn™ Passport holder:

"The ISS EDUlearn Passport has been a very popular professional development resource at our school. For one relatively low price, **dozens of our teachers, administrative staff, and support staff have participated in more than 150 courses just this year!** What I like most is that while many people took courses that were directly related to their work at the school, many also took courses in other fields or explored budding interests of theirs. Whether the content they learn in these courses helps them at our school or in some pursuit after they have moved on from us, the ISS EDUlearn Passport **helps support lifelong learning for ALL of our staff members.**

I consider it to be great value for the money. Subscribing for another year was a no-brainer for us!"

-Russell Menard, School Director, American International School of Mozambique

Something for everyone! Dive into Teaching and Learning Topics

- **Assessment and Feedback:** Learn to design creative assessments that will provide your students with timely, informative, and actionable feedback.
- **Curriculum and Instruction:** Make your international curriculum come alive! Explore innovative instructional strategies and proven practices that support student learning.
- **Diversity, Equity, Inclusion, and Justice (DEIJ):** Foster a safe, culturally responsive environment for all by reflecting DEIJ priorities in your school curriculum, and beyond.
- **Social & Emotional Learning:** To provide a nurturing learning space, explore how to support the social and emotional health of your school community.

- Innovative Leadership

Leveraging Generative AI

With its capability to generate human-like text, generative AI is changing the learning landscape. ISS can guide your school in understanding, integrating, and effectively utilizing generative AI in a way that aligns with your strategic plan and supports future-ready learning.

Beyond the workshops

Designing Contemporary Learning Spaces

- **Agile Learning Spaces:** Whether you need room for collaboration or quiet reflection, we design for a range of learning needs.
- **Maker Spaces:** Encourage experimental play and transdisciplinary learning.
- **LEVEL 5 Innovation Hubs:** Create a truly multipurpose facility to support learners and spark creativity across your community!

Leading Innovative Practices

- **Leading Change:** Ensure your innovative initiatives are successful and aligned to your strategic direction.
- **Embracing Contemporary Pedagogies:** Create new personalized and challenging experiences for students.
- **Enabling Your Environment:** Deploy the right devices, services, and platforms for your context.

Activating Communities

- **ISS CHALLENGES** offers a seamless way for teams to crowdsource and build ideas aligned to their organization's vision.

Whether you're developing a strategic plan or seeking community feedback, ISS can create a customized design sprint that turns ideas into reality.

ABOUT ISS: International Schools Services (ISS) works with more than 1,200 international schools and tens of thousands of educators each year across its suite of services, creating one of the largest global footprints in international education support. Since its inception in 1955, ISS has promoted innovative best practices. Core services include starting and operating student-centered, future-oriented schools; recruiting world-class educators and leaders; providing cutting-edge professional learning opportunities; sourcing essential school supplies; administering school foundations; and encouraging more diverse leadership in international schools. As a nonprofit organization with offices in Princeton, NJ USA and Shenzhen, China and staff located across the globe, ISS invites all to join in making a world of difference.
